

Second Annual Advanced Practice Provider (APP) Skills Course

8:00 AM – 12:00 PM, November 6, 2024 | Hyatt Regency Miami

COURSE CONTENT

- + A half-day skills course covering essential C-L psychiatry topics, including medication safety in medically ill patients, psycho-oncology, and navigating challenging interpersonal dynamics with patients and staff. This course will build on the inaugural APP skills course in 2023.
- + Clinically relevant didactics led by physicians and interactive case discussions co-facilitated by physicians and APPs
- + Longitudinal themes incorporated in case discussions include psychopharmacology, medication monitoring, liaising and relationship building skills, identifying one's scope, and utilizing team resources
