Diversity, Equity and Inclusion

Our course has been developed for Advanced Practice Providers (APPs), a workforce that can **reduce health disparities by increasing access** to medical and psychiatric care.

APPs have not traditionally been a prominent focus of ACLP meetings, and we hope this course will **promote inclusion and participation of APPs** within the academy.

We will include principles of Diversity, Equity, and Inclusion (DEI) throughout the event such as **how bias can impact countertransference in challenging interpersonal situations**.

2019 ACLP Interdisciplinary Team Member Guide: Understanding Roles, Training and Collaboration Strategies

2022 Survey of C-L Psychiatry

- Interdisciplinary composition + educational needs

2023 Inaugural ACLP APP Skills Course

- Topics: Delirium, Safety Assessments, Functional Neurological Disorder, Addiction in the Hospital Setting
- Longitudinal themes - psychopharmacology, medication safety, liaising/relationship building, identifying one's scope, interprofessional team functioning and utilizing ACLP resources

2024 Second APP Skills Course

- Three topics for more interactive case time
- Development of Interdisciplinary Team Resource page on ACLP Website

Agenda Overview

- Introduction
- Psycho-Oncology
- Interactive Psycho-Oncology Cases
- Medication Safety: Antipsychotics
- Break (10 am, 15 minutes)
- Interactive Medication Safety Cases
- Challenging Interpersonal Dynamics
- Interactive Challenging Dynamics Cases

Learning Objectives

- Recognize and apply principles of safe prescribing practices with a focus on antipsychotics.
- Identify and describe the psychological impact of cancer diagnosis and treatment on patients, including common psychiatric disorders and emotional responses.
- Formulate a management plan for challenging interpersonal dynamics in the hospital setting.

Welcome to the ACLP page for Interdisciplinary Team resources!

In line with the ACLP's educational mission, the Interdisciplinary Education Subcommittee has prepared resources to support our psychiatrists, advanced practice providers, psychologists, social workers, and other vital members of the interdisciplinary team working in both inpatient and outpatient settings.

Educational Resources

The ACLP Interdisciplinary Team Member Guide

The ACLP Interdisciplinary Team Member Guide (2019) which describes the roles, training, and collaboration strategies of team members can be found [here](#).

The ACLP Interdisciplinary Outpatient Collaborative Care Guide

The ACLP Interdisciplinary Outpatient Collaborative Care Guide (2019): A detailed bibliography of the literature regarding collaborative care in outpatient settings is available [here](#).
