During this year's annual meeting, the Academy is creating yet another unique experience at the heart of the Hilton Hotel. La Cabana is our networking beach haven, providing a relaxed setting for in-person and virtual attendees to discuss real-life concerns, meet with peers, and spice up career development discussions.

Check in the App or follow the QR Code to check out restaurant and activity options in the Miami area compiled by our Local Arrangements team!

How to Complete Your Session Evaluations to Claim Your CME Credits

1. Access the Evaluation process using either of the following:

In the meeting app, look for the Evaluation button on the home screen, or footer menu.

On the conference microsite, look for the Evaluation option in the left navigation pane.

2. Login into the Evaluation module using your ACLP profile credentials.

3. The Evaluation process will present you with three tasks to complete to obtain your CME certificate:

- Complete your profile: identify learner type, subspecialty and, for ABPN records verification purposes, your date of birth. This last item is optional.
- Select the sessions you attended for which you are claiming CME credit. For each session you claim, you will be asked to complete an evaluation of the session content and each speaker. Remember to click "Submit"! An evaluation must be completed for you to receive your CME credit.
- Complete the meeting evaluation.

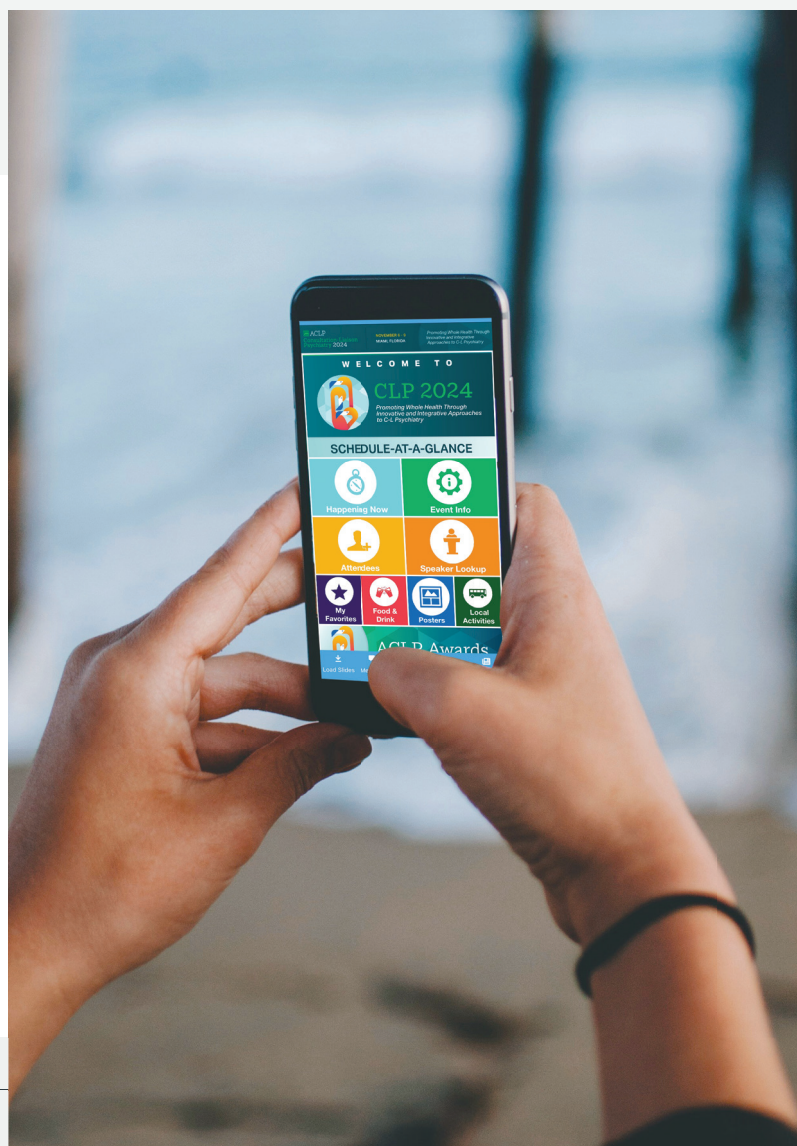

Once all three are done, you can print, download, and/or email yourself your CME document.

GUIDE TO USING THE MOBILE APP

- Download the "ACLP Events" app from the Apple App Store or Google Play Store.
- Once downloaded, open the app, select CLP 2024, then login using your ACLP credentials.
- Want to use your laptop or desktop computer?
If you have an Internet connection, access slides via the conference microsite at clp2024.eventscribe.net and login using your ACLP credentials.

WHAT CAN YOU DO WITH YOUR APP?

- + Draw or highlight important points on presentation slides.
- + Take notes on slides while in note-taking mode.
- + Access/print out your notes by clicking "My Notes" on the home screen.
- + To download slides, you will need an Internet connection, but you can view them later and take notes later without one.

Become a Champion of C-L Psychiatry

Since 2009, the Foundation of ACLP has financially supported the Academy's mission on several key fronts: developing leaders in the field, recognizing significant achievements, and advancing research efforts.

The Foundation relies on the generosity of ACLP members and others who share our vision to move Consultation-Liaison Psychiatry forward. With your support, the Academy can continue its vital work in providing leadership in a new age of health care defined by collaboration.

YOUR DONATIONS IN ACTION

By giving to the Foundation of ACLP, you play a pivotal role in:

Developing leaders in C-L Psychiatry

The Foundation provides financial assistance to the Academy's Webb Fellowship program, annually awarded to up to six residents or fellows to aid their growth and encourage longstanding involvement in ACLP.

Funding the Visiting Professorship Program

The Visiting Professorship Program funds a one- to three-day visit of a senior Academy member to an institution to promote the understanding and practice of C-L Psychiatry. This popular and competitive program is a vital pathway to promoting new forms of C-L Psychiatry techniques and research at applying institutions.

Building a foundation for the Future

The Foundation manages the funding for the Don R. Lipsitt Award for Achievement in Integrated and Collaborative Care, created to recognize a mid-career psychiatrist currently making substantial contributions to the evolving field of integrated behavioral health.

The ACLP Foundation Research Professor Program

Developed in memory of Dr. Wayne Katon, Academy president 2012-13, this award brings a leading researcher to the annual meeting and facilitates research mentorship to early career researchers. The overall objectives of the awards are to promote interest in consultation-liaison psychiatry research, and to support the development of emerging talent in the field.
