Mentorship in C-L Fellowship Training

Carrie Ernst MD

Kewchang Lee, MD, FACP, DFAPA

Case Scenario

- You are a new PD for a C-L fellowship program, and your GME Office asks you the following questions for your annual Program Evaluation Committee report:
 - How are you enhancing DEI in training, recruitment, and retention?
 - What are you doing to ensure wellness for your trainees?
- You are concerned because the UIM representation of your core faculty is 8%, and you have yet to think about wellness activities for your fellows.
- Questions for the breakout:
 - “*Mentees:*” How would you respond to these questions? What questions would you have for more experienced PDs?
 - “*Mentors:*” What guidance would you give to new PDs?

Directors' Dialogue

- Observations from the past year
- Things that are working well
- Challenges and opportunities
- Ideas for the coming year
